## POLAR LIST 113

Another list with many dedicated and signed copies, especially to Charles and Mary Swithinbank. Of particular interest is the file copy of the facsimile *Aurora Australis* (157) we produced many years ago. There is also a copy of the recent Antarctic Encyclopaedia (147), the limited edition of *Discovery Illustrated* (162) and the Polar Medal volume (218). In the Arctic there is our first copy of Snow (304), Peterson's account of the Franklin search (292) and a 19th century map (229) ripe for framing. And, this time, there is even a small whaling section including a copy of Elliot (322).
